JEFFERSON RIVERA

+63 976 512 8067 | jeffrivera09@gmail.com | Online Portfolio | Tarlac City, Philippines

PROFESSIONAL SUMMARY

Software Engineer and BS Information Technology graduate with experience in full-stack development, DevOps, application support, and e-commerce solutions. Skilled in developing and maintaining web applications, API integration, incident management, QA testing, and production monitoring. Experienced in Shopify store development, technical and on-page SEO, product listing optimization, UI/UX design, graphic design, and video editing. Combines technical expertise with creative problem-solving to deliver functional, user-centered, and search-optimized digital solutions.

WORK EXPERIENCE

Accenture | Software Engineer/Analyst

March 2023 - Present

- Contributed as a full-stack engineer to an engineering operations platform integrating PagerDuty, MUX, and Jira, building backend services, frontend components, API integrations, and SQL data workflows to enable real-time incident visibility, automated reporting, and centralized ticket management.
- Contributed to a .NET healthcare web application using C#, CSHTML, and JavaScript, delivering features for multi-role user workflows and working within Azure DevOps for source control and CI/CD-based deployments to Dev and Stage environments.
- Performed incident management and application support for Warner Bros Discovery (D+ / HBO Max), handling issue replication, investigation, escalation, and resolution for live production and VOD systems.
- Served as the point of contact (POC) for supported systems, delivering operational reports and monitoring production incidents to maintain service reliability across streaming platforms.
- Conducted data validation, analysis, and reporting to ensure accuracy and reliability of operational and client-facing data.
- Performed manual QA testing to identify bugs, ensure functionality, and support development quality assurance processes.
- Designed UI/UX layouts & improvements for web applications and internal tools to enhance usability and user experience.

Freelance Work

Web Developer | UI/UXDesigner | Graphic Designer | Shopify Developer | SEO Specialist

Provided freelance digital services to various clients, covering web development, Shopify e-commerce store development, UI/UX design, SEO, graphic design, and video editing.

- Developed and customized responsive websites and Shopify e-commerce stores, focusing on functionality, usability, and user experience.
- Executed technical SEO, on-page SEO, and off-page SEO strategies to improve website performance, search visibility, and organic discoverability.
- Optimized e-commerce product listings through keyword research, SEO titles, product descriptions, tags, meta descriptions, image alt text, and other search optimization techniques.
- Designed user interfaces, branding assets, advertising creatives, product graphics, and commercial marketing materials tailored to client requirements.
- Produced promotional videos and marketing content for e-commerce products and advertising campaigns.
- Conducted quality assurance (QA) to identify functional issues, verify website responsiveness, and maintain design consistency across devices.

Pinklestar Inc. | Graphic Designer Intern

2022

- Created digital assets for marketing campaigns including social media ads, banners, posters, emailers, and e-commerce visuals.
- Designed logos and branding materials ensuring consistency with client brand identity and marketing direction.
- Produced and edited video advertisements for e-commerce promotions and digital platforms.
- Developed e-books and layout designs for digital publication and marketing use.
- Managed social media content for a food business, including content planning, design creation, and post scheduling.
- Achieved a final internship grade of 1.0 (highest distinction) for performance and output quality.
